For Urbana campus telephone information:

HOW TO USE CAMPUS PHONES

The University's telephone system serves the Medical Center and Chicago Circle campuses. It permits callers outside the University to dial each telephone extension directly. It is not necessary to dial a general number and be connected by a switchboard operator. However, when you give someone off campus your number, give the University prefix, 996, followed by the four-digit number of your *extension*.

To call extensions at Chicago Circle or the Medical Center dial only the *last four digits* of the number. Consult your staff directory for this information.

Long Distance Person-to-Person Calls:

Dial 9 then 211 and give the long distance operator the call information. This type of call is approximately 40 percent higher in cost.

To Transfer a Call

Only calls from outside the University can be transferred. To transfer a call, depress the phone plunger *once* only. When the operator answers, give her the number to which the call is to be transferred.

Conference Calls

To establish a conference between as many as five people, dial 7036 and give the operator the conference information; remain on the line while she completes the arrangements.

To set up a conference in conjunction with an incoming call, depress the plunger once to signal the operator and ask for the conference operator. Give the conference operator the required information, stating, in addition, that you have an outside party on the line.

Telephone Repair Service

Dial 0 and give the University operator the information.
